

Wednesday May 3 2017

9:20	Welcome
9:30-10:15	James McQueen <i>Speech perception: As abstract as it needs to be</i>
10:15-10:35	Molly Babel, Brianne Senior, and Karina Wong <i>A first attempt at modeling social preferences in perceptual learning</i>
10:35-10:55	Alessandro Vietti, Lorenzo Spreafico, Vincenzo Galatà, and Constantijn Kaland <i>Mapping language experience onto phonetic categories</i>
10:55-11:15	COFFEE BREAK
11:15-12:00	Janet Pierrehumbert <i>Learning socio-indexical features of words</i>
12:00-12:20	Laura Spinu <i>Survival and neutralization of a rare cross-linguistic contrast: the case of Romanian palatalized postalveolars</i>
12:20-14:00	LUNCH BREAK
14:00-14:45	Jan Edwards <i>When ears collide: Mismatch and phonological development</i>
14:45-15:05	Núria Esteve-Gibert, Hélène Loevenbruck, Marion Dohen, and Mariapaola D'Imperio <i>The use of prosody and gestures for the production of contrastive focus in French-speaking 4 and 5 year olds</i>
15:05-15:30	COFFEE BREAK
15:30-17:00	Poster Session 1
17:00-17:20	Wolfram Ziegler, Hanna Jakob, Katharina Lehner, and Ingrid Aichert <i>A „Phonological Mind“ in our brains? Evidence from patients with brain lesions.</i>
17:20-17:40	Doris Muecke, Anne Hermes and Tabea Thies <i>Discrete categories and continuous speech dynamics in typical and atypical speech: How much variability is tolerated by the phonological system?</i>
17:40	WELCOME RECEPTION
18:30	DINNER

Thursday May 4 2017

8:30-9:15	Esther Janse <i>Spoken language processing across the adult life span</i>
9:15-9:35	Merel Maslowski, Antje S. Meyer and Hans Rutger Bosker <i>When slow speech sounds fast: How the speech rate of one talker influences perception of another talker</i>
9:35-9:55	Matthias Sjerps, Caicai Zhang and Gang Peng <i>Unequal effects in the normalization of lexical tone and the normalization of vowel quality</i>
9:55-10:15	Helena Levy, Lars Konieczny and Adriana Hanulíková <i>Long-term effects of accent exposure on perception and production</i>
10:15-10:30	COFFEE BREAK
10:30-12:30	Poster Session 2
12:30-14:00	LUNCH BREAK
14:00-14:45	Pascal Perrier <i>From abstract phonemes to speech movements: the role of orofacial biomechanics and multisensory motor goals</i>
14:45-15:30	Adamantios Gafos <i>Nearly-decomposable hierarchies, symbolic grammars and pervasiveness of dynamics</i>
15:30-16:00	COFFEE BREAK
16:00-16:45	Douglas Shiller <i>Auditory adaptation effects in speech motor control</i>
16:45-17:30	Caroline Niziolek <i>How do communicative goals affect continuous speech dynamics?</i>
17:30-17:50	Mareike Flögel and Christian Kell <i>Adaptation to dichotically presented spectral and temporal real-time perturbations of auditory speech feedback</i>
18:30	DINNER

Friday May 5 2017

8:30-9:15	Jennifer Cole <i>Individual differences and attentional effects on cue weighting for prosody perception</i>
9:15-10:00	Ann Bradlow <i>Language-independent talker-specificity in bilingual speech production</i>
10:00-10:30	COFFEE BREAK
10:30-11:15	Matthew Goldrick <i>Dynamics of lexical access and speech articulation</i>
11:15-11:35	Martin Corley, Eleanor Drake and Sara Knight <i>Using Ultrasound Speech Imaging to Investigate Within- and Cross-Language Interference in Word Production</i>
11:35-11:55	Melissa Redford and Sara Pacchiarotti <i>Temporal information marks person in a Northern Lazio Italian variety</i>
11:55-12:15	Farewell, Closing Remarks
12:30	OPTIONAL LUNCH (IF BOOKED WITH REGISTRATION)

Poster Session 1, Wednesday 3 May 15:30 – 17:00

#	AUTHORS	TITLE
1	Bosker, Hans Rutger;	How your own speech rate can change how you listen to others
2	Lilley, Jason; Athanasopoulou, Angeliki; Spinu, Laura	Exploring the front fricative contrast in Greek: a study of acoustic variability based on cepstral coefficients
3	Bruni, Jagoda; Duran, Daniel; Dogil, Grzegorz	Simulating language change and dynamics - example of Tswana.
4	Grohe, Ann-Kathrin; Weber, Andrea	Producing accented words without self-listening improves word memory
5	Chen, Si; Yiqing, Zhu; Wayland, Rtree	Minimum time for producing and perceiving pitch directions by tonal and non-tonal speakers
6	Eger, Nikola Anna; Reinisch, Eva	The effect of one's own voice and production skills on word recognition in a second language
7	Llompert, Miquel; Reinisch, Eva	The not-so-selective adaptation of vowels
8	Meynadier, Yohann; Dufour, Sophie	On the perception of voicing in whisper: a cross-modal semantic priming study
9	Mitterer, Holger	How much abstraction is too much? The case of gemination
10	Guitard-Ivent, Fanny; Fougeron, Cécile	C-to-V coarticulation in spontaneous French: An acoustic and perceptual study.
11	Barón, Leonard; Nguyen, Noel	Rhythmic convergence during conversational interactions: preliminary evidence in Spanish-speaking dyads
12	Egurtzegi, Ander	Reciprocal metathesis: The case of Basque
13	Kwon, Harim; Chitoran, Ioana; Pouplier, Marianne; Lentz, Tomas; Kamiyama, Takeki; Hoole, Philip	What native language can and cannot do: perception of onset consonant clusters
14	Krüger, Stella; Noiray, Aude; Ries, Jan	The development of vowel space in German speaking children
15	Karen Banai and Limor Lavie	Exposure-induced and training-induced learning of distorted speech: Does learning fail those who need it most?
16	Mirjam Broersma	Introducing the Ventriloquist paradigm: Combining dialogue with full control over phonetic detail
17	Asano, Yuki	Asymmetric representations of lexical pitch
18	Lennon, Robert; Stuart-Smith, Jane; Smith, Rachel	Tracking the timecourse of perception: Ambiguous rhoticity in Glasgow

19	Philip Hoole, Laura Sichlinger	Probing the representation of temporal structure in speech using auditory feedback manipulation
20	Yafit Gabay, Avi Karni, and Karen Banai	The perceptual learning of time-compressed speech: A comparison of training protocols with different levels of difficulty

Poster Session 2, Thursday 4 May 10:30 – 12:30

#	AUTHORS	TITLE
1	Abakarova, Dzhuma; Iskarous, Khalil; Ries, Jan; Noiray, Aude	Quantifying coarticulation versus invariance in German
2	Fuchs, Susanne; Reichel, Uwe; Rochter-Capellan, Amélie	How different motions affect lexical access and linguistic structure in a spontaneous speech task
3	Fougeron, Cecile; Falk, Simone	Rate variation in speech and other motor activities
4	Marin, Stefania; Pouplier, Marianne; Hoole, Philip; Pastätter, Manfred; Bombien, Lasse; Chitoran, Ioana; Kochetov, Alexei	Towards a typology of consonant coarticulation: gauging the space between universal and language-specific patterns of consonant timing
5	Rodd, Joe; Bosker, Hans Rutger; ten Bosch, Louis; Meyer, Antje S.; Ernestus, Mirjam	How we regulate speech rate: phonetic evidence for a 'gain strategy' in speech planning
6	Noiray, Aude; Abakarova, Dzhuma; Rubertus, Elina; Ries, Jan	On the domain of intra-syllabic coarticulation in German children
7	Rubertus, Elina; Ries, Jan; Noiray, Aude	V-to-V coarticulation direction in children and adults: An ultrasound study
8	Lewandowski, Natalie; Duran, Daniel	Exemplar-theoretic modeling of phonetic convergence in dialogs
9	Kim, Seung Kyung	Word Length Modulates the Effect of Emotional Prosody
10	Easterday, Shelece	Highly complex syllable structure: a motivated and stable feature
11	Spinu, Laura; Vasilescu, Ioana; Vieru, Bianca; Lamel, Lori; Lilley, Jason	Phonetic variation and contrast neutralization patterns in Romanian fricatives across different speech styles
12	Bosker, Hans Rutger; Cooke, Martin	Comparing the rhythmic properties of plain and Lombard speech

13	Schertz; Jessamyn; Kang, Yoonjung; Han, Sungwoo	Phonetic cue enhancement in hyperarticulation of Korean sibilants
14	Cunha, Conceição; Spreafico, Lorenzo	Temporal organization of initial fricative clusters in simultaneous bilingual speakers
15	Shattuck-Hufnagel, Stefanie; Choi, Jueng-Yoon; Bell, Rebeka	Individual acoustic cues to distinctive features: an approach to quantifying and categorizing large samples of dynamic speech data
16	Schölderle, Theresa; Haas, Elisabeth; Ziegler, Wolfram	The interplay of phonetics and phonology in speech development – A study of children with dysarthria
17	Aichert, Ingrid; Lehner, Katharina; Falk, Simone; Ziegler, Wolfram	Do patients with speech production impairments benefit from auditory priming with a regular metrical pattern?
18	Valentin Hofmann and Daniela Müller	Rhotic metathesis in CVrC and CrVC syllables: Evidence from Modern Croatian
19	Lia Saki Bucar Shigemori and Marianne Pouplier	Effect of phrasal accent on the articulation of Slovak /l/ in different syllable positions
