

Double articulations in Ewe

A collection of words containing labial-velar double articulations.

Note in particular the combinations of double consonant plus // in word- or syllable-initial position (otherwise Ewe has virtually no consonant clusters).

1. gb

agble agbodzedze agbale agbagbadzedze

2. kp

afɔkpa kposɔ nukpɔkplɔ akple

3. double consonants and single consonants

apa akpa aka kplu akutu ablotsi agbadɔ agutɔ ba agbo bubu kplɔ klo

(note: Ewe is a tone language, but tone has not been indicated in the above transcriptions)
