Phonetische Untersuchungen von Kleinkindern und methodologische Fragestellungen

Edwards, J. & M. Beckman (2008). Methodological questions in studying consonant acquisition. *Clinical Linguistics and Phonetics* 22, 937-956. **edwards08.clinlingphon.pdf**

Vokal-Normalisierung in verschiedenen Alters- und Sprachgruppen

Chung, H., Kong, E., Edwards, J., Weismer, G., and Fourakis, M. (2012) Cross-linguistic studies of children's and adults' vowel spaces. *Journal of the Acoustical Society of America*, 131, 442–454. **chung12.jasa.pdf**

Whiteside, S. (2001) Sex-specific fundamental and formant frequency patterns in a cross-sectional study. *Journal of the Acoustical Society of America*, 110, 464-478. **whiteside.pdf**

Der Erwerb von Merkmalen in der Kindersprache

Menn, L. & Vihman, M. (2011) Features in child phonology. Inherent, emergent, or artefacts of analysis? In G. Clements & R. Ridouane (Eds.) *Where Do Phonological Features Come From?* Amsterdam: John Benjamins (p. 261-301). **menn11.pdf**

'Frame-content theory' und Spracherwerb

MacNeilage, P. (1998). The frame/content theory of evolution of speech production. *Behavioral and Brain Sciences*, 21, 499-511. **macneilage00.brainbehscie.pdf**
Dann zusätzlich vor allem die Kommentare von Lindblom, Menn, Munhall & Jones, sowie die Antworten dazu vom Autor.

MacNeilage, P. & Davis, B. (2000). Origin of the internal structure of word forms. *Science*, 288, 527–531. **macneilage00.science.pdf**

The emergence of discreteness

Studdert-Kennedy, M. (2005) How did language go discrete? **studdertkennedy05.pdf**

Studdert-Kennedy, M. (2003). Launching Language: The Gestural Origin of Discrete Infinity. **studdertkennedy03.pdf**

Studdert-Kennedy, M. (1998). The particulate origins of language generativity. In J. Hurford et al. (Eds). *Approaches to the Evolution of Language*. CUP: Cambridge (p. 202-221). **studdertkennedy98.pdf**

Word and phrase segmentation

Christophe, A., Nespore, M., Guasti, M., and Ooyen, B. (2003) Prosodic structure and syntactic acquisition: the case of the head-direction parameter. *Developmental Science*, 6, 211-220. **ChristopheDevSci2003.pdf**

Gerken, L., and Aslin, R. (2005) Thirty years of research on infant speech perception: the legacy of Peter W. Jusczyk. *Language Learning and Development*, 1, 5-21. **gerken05.langlearndev.pdf**

Jusczyk, P.W. (2002) How infants adapt speech-processing capacities to native-language structure. *Current Directions in Psychological Science*, 11, 15-18. **jusczyk02.pdf**

Language acquisition and phonological change

Foulkes, P & Vihman, M. (in press) Language acquisition and phonological change. In P. Honeybone & J. C. Salmons (eds.), *The Handbook of Historical Phonology*. Oxford: OUP. **foulkes.pdf**

The development of phonological knowledge

(What evidence is there that phonological knowledge develops with the growth of the lexicon?)

Beckman, M.E., Munson, B., and Edwards, J. (2007) Vocabulary growth and the developmental expansion of types of phonological knowledge. In J. Cole and J. Hualde (Eds.) *Laboratory Phonology 9*. Mouton: Berlin. (p. 125-143). **beckman07.pdf**

Beckman, M.E. and Edwards, J. (2000) The ontogeny of phonological categories and the primacy of lexical learning in linguistic development, 71, 240-249. **beckman00.jchildlang.pdf**

Child-directed speech

Foulkes, P., Docherty, G., and Watt, D. (2005). Phonological variation in child-directed speech. *Language*, 81, 177-206. **foulkes05.language.pdf**

und/oder

Davis, B. & Lindblom, B. (2001) Phonetic variability in baby talk and development of vowel categories. In Francisco Lacerda, Claes von Hofsten, and Mikael Heimann (Eds.) *Emerging Cognitive Abilities in Early Infancy*. Mahwah, NJ: Lawrence Erlbaum. (p. 135–71).

The acquisition of categorization: dynamic and static cues to speech

Mayo, C., Scobbie, J., Hewlett, N., and Waters, D. (2003). The influence of phonemic awareness development on acoustic cue weighting strategies in children's speech perception. *Journal of Speech Language and Hearing Research*, 46, 1184-1196. **mayo03.jlshr.pdf**

Nittrouer, S. (2006) Children hear the forest. *Journal of the Acoustical Society of America*, 120, 1799-1802. **nittrouer06.jasa.pdf**

The magnitude and extent of coarticulation in child and adult speech

Goffman, L., Smith, A., Heisler, L., & Ho, M. (2008). The breadth of coarticulatory units in children and adults. *Journal of Speech Language and Hearing Research*, 51, 1424-1437. **goffman08.jlshr.pdf**

Zharkova, N., Hewlett, N., & Hardcastle, W. (2011). Coarticulation as an indicator of speech motor control development in children: an ultrasound study. *Motor Control*, 15, 118-140. **zharkova11.motorc.pdf**

Bilingualism in children and in adults

Sebastian-Galles, N. (2010) Bilingual language acquisition: where does the difference lie? *Human Development*, 53, 245-255. **sebastiangalles10.humdev.pdf**

Lieven, E. (2010) Bilingual language acquisition (commentary on Sebastian-Galles). *Human Development*, 53, 256-263. **lieven10.humdev.pdf**

Werker, J., Weikum, W., and Yoshida, K. (2006). Bilingual speech processing in infants and adults. In P. McCardle & E. Hoff (Eds.) *Childhood Bilingualism*. Clevedon: Multilingual. (p. 1-18). **werker2006.pdf**

Long-term, developmental studies

Cheng, H., Murdoch, B., Goozee, J., & Scott, D. (2007) Physiological development of tongue–jaw coordination from childhood to adulthood. *Journal of Speech Hearing and Language Research*, 50, 352–60. **cheng07.jshlr.pdf**

Fitch, W. & Giedd, J. (1999). Morphology and development of the human vocal tract: a study using magnetic resonance imaging. *Journal of the Acoustical Society of America*, 106, 1511-1522. **fitch1999.jasa.pdf**

Rvachew, S., Mattock, K., Polka, L., and Ménard, L. (2006) Developmental and cross-linguistic variation in the infant vowel space: The case of Canadian English and Canadian French. *JASA*, 120, 2250-2259. **rvachew06.jasa.pdf**

Vorperian, H., Kent, R., Lindstrom, M., Kalina, C., Gentry, L., and Yandell, B. (2005). Development of vocal tract length during early childhood: A magnetic resonance imaging study. *JASA*, 117, 338–50. **vorperian05.jasa.pdf**
